

Queensland - WHSO

Work Health & Safety Officer Course

Nationally Recognised Training Tailored to Your Needs!

Phone: 1300 738 098

What it's about:

Ballistic Training Solutions is pleased to provide Work Health & Safety training and qualification options for people wanting to become approved Workplace Work Health and Safety Officers with Worksafe Queensland.

Ballistic Training Solutions is a Queensland Worksafe approved organisation for the delivery of approved Qld WHSO Training and the issuance of Qld Worksafe Certificate to successful students.

Background:

On 23 October 2017, the Queensland Parliament passed amendments to the Work Health and Safety Act 2011, including introducing the ability for a person conducting a business or undertaking (PCBU) to appoint a WHSO for that business or undertaking.

A person can only be appointed as a WHSO if they hold a WHSO certificate of authority.

The appointment of a WHSO is permissible as evidence that a PCBU has taken action to mitigate health and safety risks.

Certification:

Students will receive a Worksafe Qld WHSO Certificate on successful completion of the program.

If you already hold a Certificate IV in Work Health and Safety (BSB41415) or equivalent or higher-level tertiary qualifications may also be eligible for WHSO certification.

Ballistic Training Solutions is pleased to also provide advanced Health & Safety Accreditation options including:

- BSB41419 Certificate IV in Work Health & Safety
- BSB51319 Diploma of Work Health & Safety

Price:

Based on individual requirements and mode/method of study required. Contact us to discuss an obligation free quotation today

Functions of a WHSO in the workplace:

As a WHSO, your functions are to:

- notify the PCBU about work health and safety matters
- identify hazards and risks to health and safety arising from the work
- report in writing to the PCBU any hazards and risks identified arising from the work
- immediately notify the PCBU about:
 - any incident the WHSO is aware has occurred at the business or undertaking; or
 - any immediate or imminent risk to health and safety at the business or undertaking
- investigate, or assist in the investigation of, any incidents that occurred at the business or undertaking
- accompany and assist an inspector during an inspection of the business or undertaking
- establish educational and training programs on matters relating to work health and safety.

A PCBU may appoint themselves as a WHSO. In this circumstance, their general functions are to:

- investigate, or assist in the investigation of, any incidents that occurred at the business or undertaking
- accompany and assist an inspector during an inspection of the business or undertaking
- establish educational and training programs on matters relating to work health and safety.

As a WHSO, you must assess risks arising from work carried out as part of the business or undertaking at least every 12 months and provide an assessment report to your PCBU. The report must include any identified risks to health and safety, and recommendations about managing these risks.

If there is a health and safety committee at your workplace, the committee:

- must also be given the assessment report
- may negotiate with you about when to conduct this assessment
- may also approve a work health and safety criteria for the assessment with which you must comply.

Delivery Method:

Mode of delivery is face to face with group interaction and engagement as a core part of the learning process.
