

RIIWH5204E Work Safely at Heights

DESCRIPTION

This unit describes the skills and knowledge required to work safely at heights in the resources and infrastructure industries.

It applies to those working in operational roles.

They generally work under supervision to undertake a prescribed range of functions involving known routines and procedures and take responsibility for the quality of work outcomes.

Licensing, legislative and certification requirements that apply to this unit can vary between states, territories and industry sectors. Users must check requirements with relevant body before applying the unit.

OVERVIEW

This course is delivered in a face to face workshop format incorporating knowledge-based theory assessment and field practical assessment activities conducted over a one to two-day period depending on the knowledge skill and competency of participants.
